

OMNILOG

®

OmniLOG Special Voice Recording Equipment

The One-A-LOG® Voice Recording system is integrated with the Omnilog Media Pen, Wrist Watch and Mini USB Recorders, which allows 9, 35 and 140 hour of recording on the different products.

The Mini USB Recorder looks like an ordinary USB Storage Device with 1 Gb of internal memory.

It connects to a computer (USB) to import all recorded conversations to your hard drive. Play back with Omnilog DisplayWave to enhance parts of the conversation. The Omnilog Display Wave software was developed in South Africa.
